Texas Colonel Oversubscribed

Don't wait for this announcement and then come drilling into our office by the hundred begging for this wonderful stock, as you have done on the other stocks that we have sold. Every stock that we have recommended has been a sensational success and we honeatly believe that Texas Colonel will bring in the biggest well in the Northwest Burkburnett wonder pool. Senator Testerman, who heads the company, is one of those hig conscientious men who has a reputation to sustain. He has 15 wonderful acres just 1700 yards northwest of the Texas Chief and in line of biggest production. He only capitalized for \$100,000 and the shares are selling at \$1 par. He could have just as easily capitalized at \$300,000 and have sold the shares above par but he believes in giving the people who have honored him a run for their money. Senator Testerman is not a certificate peddler but is staking his reputation on getting oil and is willing to take his chance with the other shareholders to make money when a gusher is brought in. My advice to my thousands of clients is to "hedge" on Texas Colonel. If you have bought stocks from other concerns that you are doubtful of buy Texas Colonel to the limit at \$1 par. We can fill your orders if anybody can but don't wait until Texas Colonel is off the market and in the hands of the speculators and expect to get it at par.
